

2018 Architecture BUILD Awards

BUILD Magazine Announces The 2018 Architecture Awards Winners.

United Kingdom, 2018- BUILD Magazine has announced winners of the 2018 Architecture Awards Winners.

Now celebrating its fourth year, the prestigious Architecture Awards return in 2018 to recognise and acknowledge the outstanding works conducted by imaginative designers, engineers and visionaries, whose inspiring and memorable designs and structures enhance our horizons.

Focusing on a myriad of disciplines, our awards will strive to recognise and pay tribute to all who fall under the scope of Architecture. As energy efficiency and sustainability have become increasingly vital to modern designs, we will also pay homage to those who continue to design the healthiest and cleanest structures, with an added impetus on creating environmentally safe and friendly buildings.

From the largest corporations and the small studios and practices - to the hard-working sole traders, the Architecture Awards will highlight only those who have proven themselves in this world-scaping sector – only excellence is of importance.

Discussing the awards, Kaven Cooper, Awards Coordinator stated: “It has been my pleasure to share the exceptional achievements and hard work of all my winners. Congratulations, I will be looking forward to seeing your future projects come to fruition.”

To find out more about these prestigious awards, and the dedicated professionals selected for them, please visit <http://www.build-review.com/> where you can view our winners supplement and full winners list.
